

How can you keep your recreation space clean during these uncertain times?

Reference these important cleaning guidelines provided by the CDC below:

[Environmental Cleaning and Disinfection Recommendations](#)

What else do I need to know?

- Click **HERE** for additional guidelines
- Use caution with your choice of cleaning agents, as some may present a health issue or cause surface damage
- If a pressure washer is utilized, operators should take care to prevent damage to paint or other exterior finishes

We can help!

More information about cleaning and maintenance can be found in the Playground Inspection & Maintenance guide provided by Play & Park Structures. Request this guide by simply clicking the image below:
